DRIVER RECRUITING MANAGEMENT SOFTWARE

## Features & Benefits

- Residing directly on your AS400 operating system or on our Internet-based host system, **RapidHire**® turns a traditionally slow, ineffective, clumsy and error-prone paper-and-file-drawer process into a **FAST** and **EFFICIENT** computer-driven process.
- Learning **RapidHire**® is **QUICK** and **EASY**. Your recruiting staff will be more **PRODUCTIVE** and **EFFECTIVE** almost immediately.
- **RapidHire**® has developed a DAC interface that immediately transmits **EMPLOYMENT HISTORY** and **MVR** reports to your recruiter's **RapidHire**® screen. DAC reports are displayed to the recruiter while the candidate is still on the phone. With this powerful rapid hiring feature, your recruiter will be able to determine whether to either end the phone interview or to move forward to bring the Driver into your fleet before they call another company.
- The **RapidHire**® Internet link of iAPP® will take Driver candidates who chose to apply from the web, through an interactive mini-interview which results in a secure, completed application entered directly into your **RapidHire**® database. Drivers who are highly qualified according to your own requirements are encouraged to call immediately, ensuring the best candidates seek you and not your competition.
- **RapidHire**® includes all the features needed to modernize and speed up your entire recruiting process. It includes **MANAGEMENT REPORTS**, **DRIVER FOLLOW-UP** and **CLASSIFICATION CATEGORIES**, **SUPPORT** and many other benefits in an inexpensive monthly fee structure.

DRIVER RECRUITING MANAGEMENT SOFTWARE

## What Our Customers Say about Us

*"I know of no other recruiting package that has an automated DAC verification solution. The DAC verification is a HUGE time saver. To summarize... WOW!"*

*"Your RapidHire product has revolutionized our hiring process and lowered our cost structure."*

*"With RapidHire, all hiring steps are more efficient. Applications are processed in minutes and, in many cases, job offer are made to qualified individuals in as little as a day."*

*"In my opinion, RapidHire is the most efficient driver recruiting package in the industry."*

**Vincent Schott**

Vice President of Information Services, KLLM, Inc.

*"I have been working with many vendors over twenty years in the trucking industry and have never seen a product that has been so easy to install and maintain."*

*"I am particularly impressed with your ability to easily interface with various products such as TMW Systems, Inc. and DAC. Our Executive Management is pleased with the reports that they can now obtain with ease and the fact that we can do more with less man-hours."*

*"RapidHire is a great advantage for us in our recruiting efforts and has really streamlined our efforts."*

**Lori E. Brown**

MIS Director, PGT Trucking
