## **DRIVER RECRUITING MANAGEMENT SOFTWARE**

FOR IMMEDIATE RELEASE  
Greenwood Village, Colorado  
January 31, 2005

### **RAPIDHIRE ANNOUNCES NEW PARTNERSHIP**

Lloyd Tempero, President of **RapidHire, LLC**, is pleased to announce the formation of a new partnership with Martha Graves Reese and Mark Reese, of Greenwood, Colorado. Martha has been named as Chief Financial Officer and Mark has assumed the position of Vice President.

“By partnering with such experienced and qualified individuals, **RapidHire** will now be expanding its position as the foremost driver recruiting management software in the trucking industry,” says Tempero, “and I will be focusing 100% of my attention on continuing the technical improvements to the **RapidHire** software and new product development.”

Both new partners bring an extensive depth of knowledge of the transport business. Martha Graves Reese grew up working in the family-owned Graves Truck Line, which her grandfather started in the 1930's in Salina, Kansas. The Graves legacy continues today with many family members still influential in the trucking industry. Mark Reese has developed a wealth of experience, successfully marketing a variety of automotive and trucking software solutions for over 30 years.

“We know that two of the industry's most urgent problems are the shortage of drivers and high turnover rates. Antiquated hiring practices contribute to the seriousness of the present situation,” says Martha Graves Reese, “We both immediately saw the tremendous ability of the **RapidHire Driver Recruiting Management Software** to help solve both the driver recruiting and driver retention issues for transport companies.”

Mark Reese adds, “While other software packages may provide some of the necessary elements, **RapidHire** is the most comprehensive, fully-integrated and cost-effective program available. Most importantly, it has been designed specifically to meet the many special needs of the trucking industry. We were impressed with its unique USIS/DAC interface and the many other groundbreaking features which Lloyd Tempero has developed and continues to build upon.”

Together, they have introduced **RapidHire's** new monthly service and maintenance plans, which include ongoing upgrades and application service hosting for existing users of the **RapidHire Driver Recruiting Management** system and special introductory pricing for new **RapidHire** customers.

For further information about **RapidHire Driver Recruiting Management Software** and how it can revolutionize your trucking company's hiring process, call Mark Reese, Vice President for **RapidHire, LLC**, at 303-797-8855 and schedule an on-line demonstration today.
